Everybody was ready to help and serve with love.

From the first moment we were in Debrecen we felt the fabulous people, well-prepared program and we could not find any time to get bored or get stressed, it was full of activities but none annoyace which demands so much effort

People were really friendly and everything was well organized.

It was a really good school and I enjoyed the students, they were really nice, I just didn't like the fact that the school buffet had a lot of unhealthy things like candies and soda.

It was very cozy

Because everybody receives us very well, many teachers and students are involved in the activities like a big family.

I really liked everything, but the canteen wasn't very good even though on the last 2 days it was better

Because all people was warm blooded ,friendly and fun

Because the school is very good and the students are very loving
